

Asylhan Ukenov

Toronto, ON | Scarborough, 937 Progress Avenue

Mobile: 647-806-9317 | aukenov@my.centennialcollege.ca

GitHub: <https://github.com/ukenov> | GitLab: <https://gitlab.com/Asylhan>

Self-taught programmer with the ability to work in multitasking mode and high analytical abilities allow me to work effectively with large volumes of information, quickly find high-quality solutions to complex problems. Have experience with solving conflicts in a team and take responsibility for team decisions.

SKILLS

- **Languages:**
Russian(fluent), Kazakh(fluent), Hebrew(fluent), French (Basic)
- **Programming / Languages:**
C#, Python, Java Script, HTML, CSS, XML
- **IDE Tools:**
Visual Studio, IntelliJ IDEA, Android Studio
- **Databases:**
Oracle, SQLite
- Creating web site designs and user interface design
- Experience working with Adobe Photoshop, Microsoft Expression Web, FileZilla

Projects

- Portfolio website: <https://ukenov.github.io/>
- **Mini-games**
 - Creation of matching game, where players have to find a hidden pair of numbers. Game was made in windows forms with C#.
 - Creation of similar to the previous game, here the player needs to find a number that is displayed on the top from the columns of random number generated below. The biggest difference and difficulty was that all numbers were random, including the top number.
- **Translator en-ru**
 - Using of Yandex API services to translate English to Russian and opposite.
 - Using of Hunspell library as a spell checker, previously used Hamming distance theory. But the program was highly inaccurate due to a large number of words in the dictionary.
 - Started as a console program, later been modified to work in windows forms and web.
